Interface Design

I participated in the UI Design of a One page, following Brand guidelines. I organized the text to ensure clear hierarchy and designed the form to be intuitive. Additionally, I strategically positioned the Call to Action, checkboxes and others UI elements using best design practices, resulting in increased user interaction and project goal achievement.

I collaborated on the UI design of a microsite following the brand guidelines, from the initial filtering process to the implementation of the giveaway trivia, while ensuring responsive design. I maintained constant communication with the developers and ensured an intuitive user flow at all times, contributing to the achievement of the set objectives.

Interface Design

I contributed to the update of an institutional website for a government agency by developing a design system and toolkit for developers. The project spanned over 15 pages, enhancing the intuitiveness of processes within the site.
